

SHRINK FAST GAS GUN

Model: SF998

- Manual Shrinking of Pallet bags and tubing over loads has never been easier than with the SHRINKFAST Gas Gun.
- This unit has a broad heat zone, which minimizes the possibility of blowing holes in the film, due to concentrated heat spots. Increased heat area reduces the overall time required to shrink the load.
- The Ergonomic design of the SHRINKFAST Gas Gun reduces operator fatigue. The unit comes complete with carry case, 7.3m Hose, and Trigger Ignition & Regulator unit ready to use.
