

HANNAN DIE CUTTING EQUIPMENT

Model: 620H

- The HANNAN Die cutter is ideal for cutting out your skin and blister packaged products.
 It is also suited for making boxes, gaskets, cutting plastics, foam etc.
- Uses Hydraulic pump for cutting action
- Positive placement of die cuts ensures fast accurate cutting of packs in a safe single operation
- The Machine operation is capable of increasing the life of your dies over more conventional roller type cutters.
